AVB Construction

Project Description

Diekema Hamann Architecture + Engineering was selected to help Montessori School to help in refining scope and cost options for new construction and renovation possibilities at the existing downtown Kalamazoo site. We met with representatives from the Montessori School to establish critical priorities, reviewed needs, help establish preliminary cost estimates, and presented options for the Board of Directors. The Board approved the presented options from Diekema Hamann and are currently in the process of moving forward with construction. The addition and renovation is expected to be finished September of 2014.
