Construction Manager
CSM Group

Project Description

In 2014 Diekema Hamann was again hired by Frauenshuh Health Care Estate Solutions of Minneapolis Minnesota, for all architectural, interior design, and engineering services. This was for a new medical office building to be located near Brighton Michigan, in Livingston County. Partnering with St. John's Providence Hospital, Diekema Hamann has provided a total building solution for a variety of specialty services. The 3-story 60,000 square foot building is situated with in a suburban setting. The design considers building materials and elements used on previous St. John Providence projects, while considering the site and building design guidelines set in the PUD approval requirements of the Township.

The building will contain various services including radiology, imaging, rehabilitation and urgent care.

BIM LOD 300 Project
